What will you do?

The Software Engineer II is responsible for the development and improvement of software application features by creating a technical specification document based on business requirements, delivery of developed features, testing of developed features, management of Jira tickets, and providing level 3 support to production issues. This role assists the Lead Software Engineer in mentoring other developers and other tasks such as formulating standards, best practices.

Features Development

- Develop features and write technical specification documents according to refined functional requirements fully coordinated by the Business Analyst and the Product Manager;

Technical Support

- Analyze and fix production issues and report the resolution to leads/technical support team;

Talent Development and Continuous Improvement

- Mentor other developers, assisting Lead Software Engineer, and contribute to the company's drive for continuous improvement;

Technical Documentation

- Create and revise documents that cover the architecture, structure, design, etc web application products.

Performs other ad hoc activities as necessary and as prescribed by the Immediate Manager or Authorized Representative.

What are we looking for?

- Candidates must possess at least a Bachelor's Degree in Computer Science, Information System, or Information Technology.
- At least 3 years of work experience as a developer is preferred.
- Required skills: ASP.Net MVC(C#, Html, Razor), SQL, Git
- Nice to have but not required skills: Javascript, React.JS.
- Knowledgeable in Jira is a plus.
- Must have a good understanding of using OOP in C#
- Exposure to an agile environment is a plus.
- Must have good testing and programming aptitude.
- Must be comfortable with the English language and the ability to communicate well.
- Willing to work following Australian time & holidays.

***Candidates outside Metro Manila or from provinces are welcome to apply!*

How to Apply

Bring us your talent, enthusiasm, and help us move to the next level of excellence. If you are someone who enjoys ownership and continuous learning, then we'd love to hear from you! Please submit your updated resume to recruitment@realtair.com with email subject: **Realtair, Inc. – Software Engineer – First Name and Last Name.**

COVID-safe precautions

Our recruitment and onboarding process has been adapted to comply with COVID safe precautions using our online recruitment process and Google Meetings online for video interviews. Everyone's safety is our top priority. If you get the role, you'll be working remotely with the rest of the team until it is deemed safe to go back on normal business operations within the office premises.
