What will you do?

The Quality Assurance Analyst reports to the Project Manager Officer and is responsible for maintaining the quality of the Company's systems and drives quality-related activities. S/he will be responsible for conducting tests before the product launch to ensure that all objectives and requirements are met. S/he must coordinate with the Product Team to ensure that the process is maintained and further improved to keep up with the fast-paced environment.

Requirements gathering

- Gain an understanding of the Company products to ensure that all the objectives are met and that the solution works as expected;
- Get Involved in the requirements gathering, design, planning, development, launch, and maintenance of the product to better guide and assist the Product Team in providing innovative high-quality solutions;

Test Case Management

- Drive the process of creating the test cases for testing during development;
- Own the process of making sure that test cases are executed;
- Drive the test automation efforts of the company, to help reduce manual testing efforts;

Talent Development and Continuous Improvement

- Engage in the company's drive to improve the skills of the employees, its processes, and to help discover new tools/frameworks. To share knowledge and help colleagues and businesses improve operations.

Performs other ad hoc activities as necessary and as prescribed by the Immediate Manager or Authorized Representative.

What are we looking for?

- Candidates must possess at least a Bachelor's Degree in Computer Science, Information System, or Information Technology.
- Must have at least 1 year technical support experience.
- Fresh graduates are open to apply
- Must have a basic understanding of C# or VB.NET
- Must have a basic understanding of SQL
- Must have an understanding of QA Testing Fundamentals
- This role will also require a mastery of the English language and the ability to communicate well.
- Willing to work following Australian time & holidays.

How to Apply

Bring us your talent, enthusiasm, and help us move to the next level of excellence. If you are someone who enjoys ownership and continuous learning, then we'd love to hear from you! Please submit your updated resume to recruitment@realtair.com with email subject: **Realtair, Inc. – QA ANALYST – First Name and Last Name**.

COVID-safe precautions

Our recruitment and onboarding process has been adapted to comply with COVID safe precautions using our online recruitment process and Google Meetings online for video interviews. Everyone's safety is our top priority. If you get the role, you'll be working remotely with the rest of the team until it is deemed safe to go back on normal business operations within the office premises.
